REVOLUTION TRIUMPHS IN PORTUGAL

47 WOMEN KILLED, 300 HURT IN AUSTRIA

TRANSYLVANIA SAFE

NEW OFFICIALS RULE AS RIOTS IN LISBON END

Three Day Revolt Costs 67
Lives and More Than
300 Wounded.

WHERE IS PRESIDENT?

(By the Associated Press.)
LISBON, May 17, 3 a. m.—The success of the revolutionary forces has been confirmed. The new government, which will be proclaimed over by Jose Chagas, was proclaimed last night from the windows of the city hall and the announcement was received with enthusiastic manifestations.

The military governor of Lisbon immediately posted throughout the city proclamations ordering the citizens to deliver up all arms at the annual under pain of arrest.

07 KILLED; 300 WOUNDED.
The casualties in Friday's fighting numbered 67 killed and 300 wounded. Saturday's list is not yet obtainable, but there were many victims on both sides during assaults on police headquarters, the military college, and the cavalry barracks, the defenders of which delivered determined counter attacks before they were overpowered.

The insurgents wrecked and looted the houses in which Capt. Condeira, the royalist leader, stayed until recently. Several royalists were arrested, including Marquis Fialho.

ORDER PARTLY RESTORED.
Order has been partly restored and the new government is taking measures to re-establish normal conditions. The former minister of marine was arrested and taken aboard a warship for having ordered a destroyer to sink the warships which were bombarding the city.

News from Oporto indicates that the disturbances there were similar to those in Lisbon, but that there were fewer casualties.

All the regiments in Lisbon and in the provinces now have surrendered.

CAVALRY LAST TO QUIT.
The last two to capitulate were cavalry regiments, which led the military movement resulting in the appointment of Filomeno Castro as premier in January.

The whereabouts of President de Arriaga, who fled from Belem castle day before yesterday, is unknown here. Senor Chagas is expected to arrive from Oporto tonight. The newspapers announce that the president of the republic, Senor de Arriaga, has signed the nomination of the new cabinet. A. M. de Silva will retain his position as director of posts and telegraphs.

'Death to Emperor' Trieste Crowds Shout in Uprising

Tear Up and Burn Flags and Pictures of Franz Josef.

BULLETIN.
LONDON, May 17, 3 a. m.—It is reported here early this morning that Austrian troops have crossed the Italian border.

BULLETIN.
BERNE, May 16.—The troops of the third category have left Milan for an unknown destination. Yesterday evacuations began. Property owners who were obliged to leave property received government receipts for it. By evening the whole district from Lake Garda to and including Trent was evacuated. New and heavy artillery has been brought up.

(By Cable to The Chicago Tribune.)
ROME, May 16.—A revolt started today in Trieste. Crowds of citizens, women predominating, assaulted the governor's palace, shouting, "Death to Francis Joseph," and tore up and burned the Austrian flag and pictures of the emperor. Forces of gendarmes were called out to suppress the riots, but the crowds stoned them and erected barricades in the streets. Gasping were torn up and shops were wrecked and looted.

Finally, troops were called out, and these charged and dispersed the rioters. Forty-seven women are reported to have been killed and over 300 wounded.

Troops Clash on Border.
The trend of events between Italy and Austria is considered most significant, in view of the fact that clashes between Italian and Austrian troops are reported to be occurring on the frontier. The Austrians, according to one report, have attempted to cross the boundary at one point, but were repulsed by the Italians, who took one prisoner.

Official announcement was made here this afternoon that King Victor Emmanuel had declined to accept the resignation of Premier Salandra. The Salandra cabinet is to be retained without change. This announcement was received with great demonstrations of rejoicing and manifestations in favor of war.

Twenty thousand persons paraded through the central streets of Rome, cheering for the allies as they passed the embassies of the enemy powers. In the course of the demonstration a couple of German ships were wrecked and two despots who are known as followers of former Premier Giolitti, chief peace advocates, were mobbed.

Austrian Envoy Asks Passport.
Baron Sonnino, the foreign minister, had a long conference this morning with M. Carrara, the French ambassador. The foreign minister received Baron Sonnino, the Austrian ambassador, this evening. The Austrian envoy is reported to have demanded his passport. The Austrian and German consuls throughout Italy have notified the few remaining nationals here to hasten their departure, and it is possible not to delay longer than tomorrow night.

An immense pro-war demonstration has been organized for tomorrow morning in front of the Quirinal, during the king's audience with the cabinet. It is asserted that former Premier Giolitti will make a public statement to the effect that he had believed it possible to obtain from Austria concessions sufficient to avert war, but that once war is inevitable he will support the cabinet.

Italy Has 1,700,000 Ready.
GENOVA, May 16.—A telegram from Lugano, a Swiss city near the Italian border, says that Italy now has 1,700,000 soldiers mobilized and equipped. It also is said that the Austrian government has confiscated the property of the Rothschilds, as well as that of various English, French, and Russian families.

REACHES PORT IN SCOTLAND; WENT NEW WAY

Evades Submarine Fate of Lusitania by Taking Another Route.

New York, May 17, 1 a. m.—(Special.)—The liner Transylvania carrying 879 passengers—twenty-eight of them Americans—and a cargo of war munitions, has reached port safely.

The giant vessel arrived at Greenock, Scotland, at 3 p. m. this morning (London time), officials of the Cunard line announced here this morning.

Last night it was said the boat probably would arrive at Liverpool or Glasgow some time later today, if it succeeded in evading German submarines and the fate of the Lusitania. From that it was deduced that the ship was taking a route different than the Lusitania, which facts now prove to be correct.

Secrecy has marked the progress of the Transylvania since it left this port on Friday, May 7. The same day the Lusitania was sent to the bottom. This secrecy was maintained by the British admiralty. It is believed, for the vessel undoubtedly was proceeding under its orders.

Captain Had Defied Submarines.
The captain of the Transylvania, John Black, is the man who declared in firm tones when told shortly before sailing of the Lusitania's fate:

"I have been hunting for a submarine ever since this war began. I only hope I see one on this trip and that it comes close enough for me to run it."

"Do you expect to see the American flag when you reach the war zone?" he was asked.

"No, sir; I'll take my ship to port with the flag of England flying or not at all," he replied.

All precautions, however, Capt. Black said, would be observed when the Transylvania reached the war zone.

Germany's Reply Will Insist on Submarine War?

Officials Say These Craft Offer Only Defense on Ocean.

BULLETIN.
LONDON, May 17, 4 a. m.—Another Zeppelin raid on England is reported this morning (Monday). A dispatch from Ramsgate tells of the appearance there of an air machine, which dropped forty bombs.

The most serious damage done was on the Bull and George hotel. A bomb went through the roof and struck a bed. The bed and a woman occupying it fell into the cellar through the hole made by the bomb, and the woman was severely injured. All the windows of the hotel were shattered. It is reported that three other persons were injured in Ramsgate.

There also is a report that the airship dropped bombs on Dover.

BY KARL H. VON WIEGAND.
(Copyright, 1915; By Press Publishing Company (New York World).)
BERLIN, May 16, via The Hague, May 16.—Germany will not deviate one iota from its submarine warfare against Great Britain. That can be forecast as the answer to President Wilson's note.

The answer will be couched in the lightest language and friendliest terms, and it will breathe the most cordial spirit toward America, but none the less that will be the answer unless there is a change of mind in responsible governmental circles within the next two or three days.

President Wilson's note arrived about 10 o'clock last night. Ambassador Gerard personally delivered it to Foreign Minister von Jagow this morning.

It has not been made public by the foreign office, and it probably will be given to the press simultaneously with the text of the answer after the latter has been delivered in Washington.

I am reliably informed that the answer need not be expected before Tuesday or Wednesday, and will not be drawn until a conference or council has been held on the American note and the character of the reply decided upon by such a conference of the government.

The cordial and friendly tone of the note has made a good impression, and there is no doubt of President Wilson's good intentions and earnest desire that the relations between American and German countries be cordial and friendly. This wish is fully reciprocated here.

None the less, any hope held by President Wilson that Germany will desist from the sinking of the Lusitania other than express regret at the loss of lives of non-combatants, or any expectation that Germany will give up its submarine warfare on British merchant ships, is almost certain to be doomed to disappointment.

WILSON ARRIVES TO REVIEW FLEET

New York, May 16.—President Wilson on board the naval yacht Mayflower reached New York tonight, completing the voyage from Washington shortly before 11 o'clock when the yacht, conveyed by the cruiser Baltimore, passed Sandy Hook.

Before the president's arrival arrangements had been completed for the event which brought him here—the review of the Atlantic fleet tomorrow and Tuesday, and which promises to be one of the greatest naval spectacles ever held in the United States. Indications point to notable demonstrations on the president's appearance on shore for the land parade.

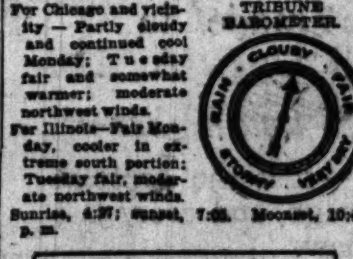

Conveyed by Cruiser.
When the Mayflower passed quarantine it became known for the first time that it had been conveyed from Hampton Roads by the cruiser Baltimore. Secretary Daniels announced in Washington last week that the Mayflower would not have a conveyer, but it was understood tonight that he had changed his mind in order to be sure of the safety of the president and his party. After seeing the Mayflower safely into the harbor tonight the Baltimore anchored off Tompkinsville.

Officials made it clear, however, that there was nothing unusual in sending a conveyer with the presidential yacht and that the added precaution was not due in any way to the international situation or to any known danger of any kind. When President Taft went on trips at sea he was almost always conveyed, but this is the first time that a conveyer had followed President Wilson.

Wilson a Good Sailor.
The last part of the trip was unpleasant because of a choppy sea. The president, however, is a good sailor. The Mayflower will join the fleet early tomorrow. It will be welcomed with all honors. The crowning event will come on Tuesday morning, when the Mayflower will take station near the Statue of Liberty, and the fleet, headed by the Wyoming, will swing out to sea, firing presidential salutes as the ships pass the yacht. Elaborate preparations have been made to guard the president.

THE WEATHER.

MONDAY, MAY 17, 1915.

For Chicago and vicinity: Partly cloudy and continued cool Monday; Tuesday fair, moderate and somewhat warmer; moderate northwest wind. For Illinois—Fair Monday, cooler in extreme south portion; Tuesday fair, moderate and somewhat warmer; moderate northwest wind. For Hawaii—Fair Monday, cooler in extreme south portion; Tuesday fair, moderate and somewhat warmer; moderate northwest wind.

SEA FIRE PERILS 1,300 ON LINER

New York, May 16.—(Special.)—Passengers who arrived today on the Norwegian-American liner Kristianstad from Bergen brought thrilling details of their escape from a fire discovered in the hold on May 7, the day the Lusitania was torpedoed. Among the 800 passengers were Mrs. George T. Mayne, wife of the United States ambassador to Russia; Commander W. M. Irwin, U. S. N., retired; Mrs. Irwin and her two daughters, and Mrs. Theban, wife of the French minister to Stockholm.

Capt. S. C. Hjortdahl and his officers and crew fought the fire for fourteen hours, until 2 p. m. on May 8, when it finally was got under control and the liner resumed its course for New York, much to the relief of passengers and crew, who numbered 1,300 souls all told.

The cause of the fire is believed to have been spontaneous combustion among guns generated from some of the cargo that had been placed near the stove hole amidships in the lower hold.

Mrs. Marye Telle Experience.
In an interview this evening Mrs. Marye said she had had a most exciting time all through the night of May 7, as the passengers did not know when they would be called to descend to the lower deck and embark in the lifeboats that were swinging within a few feet of the water ready to be dropped.

"Just after the big bell on deck had rung eight times—for midnight, I believe—there was a strong odor of something burning," Mrs. Marye said. "and I heard the notes of the siren and officers tramping on the deck overhead. Freely I heard the stewards knock at the cabin door, and when I opened it he told me quietly that the ship was on fire. She said I was not to be alarmed, but to dress quickly and come on deck. Before leaving the stewards asked me if she would come back and assist me to put on my life belt, which she took down from the rack. Then I heard the Irwins and other first cabin passengers being aroused rapidly, one after another, without any fuss or excitement.

STATE FIGHT ON DENEEN BEGUN BY THOMPSON

New Control of G. O. P. Is Planned in Wisconsin Woods Meeting.

BY CHARLES N. WHEELER.
A new Republican organization in Illinois, which an attempt will be made to draw all the anti-Deneen forces that have been fighting since 1904 to put the former governor out of politics was announced yesterday in the woods of Wisconsin.

New William Hale Thompson is to be the visible head of the new coalition. Col. Frank O. Lowden is to be the combination candidate for governor in the primary next year.

Paul Leland will be the master mind and command of the forces.

Fight in Primary.
A complete state and Cook county state will be put in the field for this primary struggle.

Every congressional district of the state will be made a battle ground.

Mayor Thompson himself or Fred Lumsden is to be the candidate for national committeeman in opposition to Roy O. West.

The plans outlined contemplate one of the bitterest and most spectacular fights for control of the Republican machinery of Illinois staged in the commonwealth since the defeat of Richard Yates for the nomination for governor in the memorable double state convention eleven years ago.

The focus at the Grange.
The men who "sat in" at the "burning" of the new coalition in the Wisconsin woods throughout the Sabbath day are:

William Hale Thompson, mayor of Chicago.
James A. Fugh, financial backer of the mayoralty battle.
Col. Frank O. Lowden, Republican candidate for governor.
Paul Leland, political director of the new administration.
Capt. Percy Coggan, president of the city civil service commission.
W. H. Reid, new director of the city police inspection bureau.
Harry Ward, Duquoin, spokesman of the Lumber organization for southern Illinois.
George W. Hastings, state senator from the south side "boss."
Albert W. Clark of South Chicago, another state senator.
At Clark's Country Home.
The momentous foregathering took place at the country seat of former Senator Clark at Eagle Lake, Wis., the "political hotbed" of the city.
From Chicago quietly Saturday afternoon after impressing solemnly on their associates the importance of their meeting as a living soul where they were gathered.

Woods Discussion Plan.
At the close of the time was passed in the woods where night and the trees might be said to have been talking.

Woods of the coalition makers discussed the conference or even that the politics was talked at all. It was conclusively learned that the discussion of the new city administration intended to go the limit in their attempt to get Mr. Deneen out of the political map and to install several of his close political associates.

Presence of Col. Lowden and Harry Ward was significant. That Col. Lowden had the solid backing of the city administration and its allied forces out of the state was accepted without hesitation. No one seemed to have any other opinion on the situation.

Lowden Awaits Word.
Mr. Lumsden, who went down to the woods before the Deneen hosts in the his political battle in 1904, and because he so impaired his health that it has been restored for many years, is ready to be named on page 3, column 2.

the revolutionists there have been prevented from posting a decree suspending the civil guarantees. It adds that all the banks and commercial houses in the center of the town have been closed.

Premier Dato announced today that the Spanish battleship Espana will arrive at Lisbon tomorrow to protect Spaniards and other foreigners in event of further trouble. He added that it is probable that another warship also will be dispatched to Portuguese waters.

DELAIED NEWS OF REVOLT.
PARIS, May 17, 2 a. m.—The Lisbon correspondent of the Havas agency, telegraphing Friday, but whose dispatches were delayed in transmission, says regarding the short-lived revolt:

"The Bank of Portugal and other public buildings are being guarded by bluejackets. The night was generally calm, but there were a few isolated shots.

"The killing of the commander of the battleship Vasco de Gama and of a petty officer by bluejackets has been confirmed. A large number of wounded have been taken to hospitals.

"The troops are exchanging shots with the insurgents at various points, particularly around the ministries, which have been closed. The ministry of the interior is guarded by Republican guards.

"A bomb was exploded today in the Republican and Democratic Solidarity club.

Santarem Railroad Line Out.
AT Santarem the railroad line was cut immediately after the morning express passed. The sixteenth infantry made common cause with the insurgents, and their example was followed by the rest of the infantry and artillery, who triumphed over the royalists.

"Over two hundred persons were wounded and are being treated in the civil and military hospitals. Seventy bodies have been taken to the morgue. Seventeen soldiers were killed.

"Communication by railroad and telegraph has been interrupted in many places.

"Numerous buildings in Lisbon which were struck by shells from the warships are now burning.

"The second infantry which was mounting guard at divisional headquarters, mutilated and joined the bluejackets at the naval barracks.

"Parties of stretcher bearers are being formed to bring in the wounded.

"A battery of artillery opened fire on the warships, which returned the fire."

Surrender to Insurgents.
Another dispatch, dated Saturday, says:

"A decree suspending the civil guarantees was signed at 6 o'clock this evening.

"The republican guard barracks has surrendered to the insurgents."

"President de Arriaga returned to the Belém palace, but left again at 6:30 p. m. in the direction of Queluz, escorted by a brigade of cavalry. At 8 o'clock the troops assembled on the heights of Alentejo, comprising the Second and Fourth cavalry, a battery of horse artillery, and the First infantry. They were ordered by headquarters to cease hostilities and return to their barracks, an armistice having been signed.

"At the same time the formation of a national ministry, which is supported by all the republican party, was announced. Dr. Carlos Olive has been appointed civil governor of Lisbon."

"The cadets at the military academy have surrendered.

"Premier Pimenta Castro has disappeared, and no one knows his whereabouts."

FINANCIAL EDITOR INJURED WHEN CAR HITS MOTOR.

Girl and Actor in Machine Also Hurt in Accident in North Clark Street.

George Albert Johnson of 1209 North Shore avenue, financial editor of the Chicago Herald, was seriously injured last night when his automobile was struck by a Clark street car at Sheffield avenue. Two others in the car were hurt.

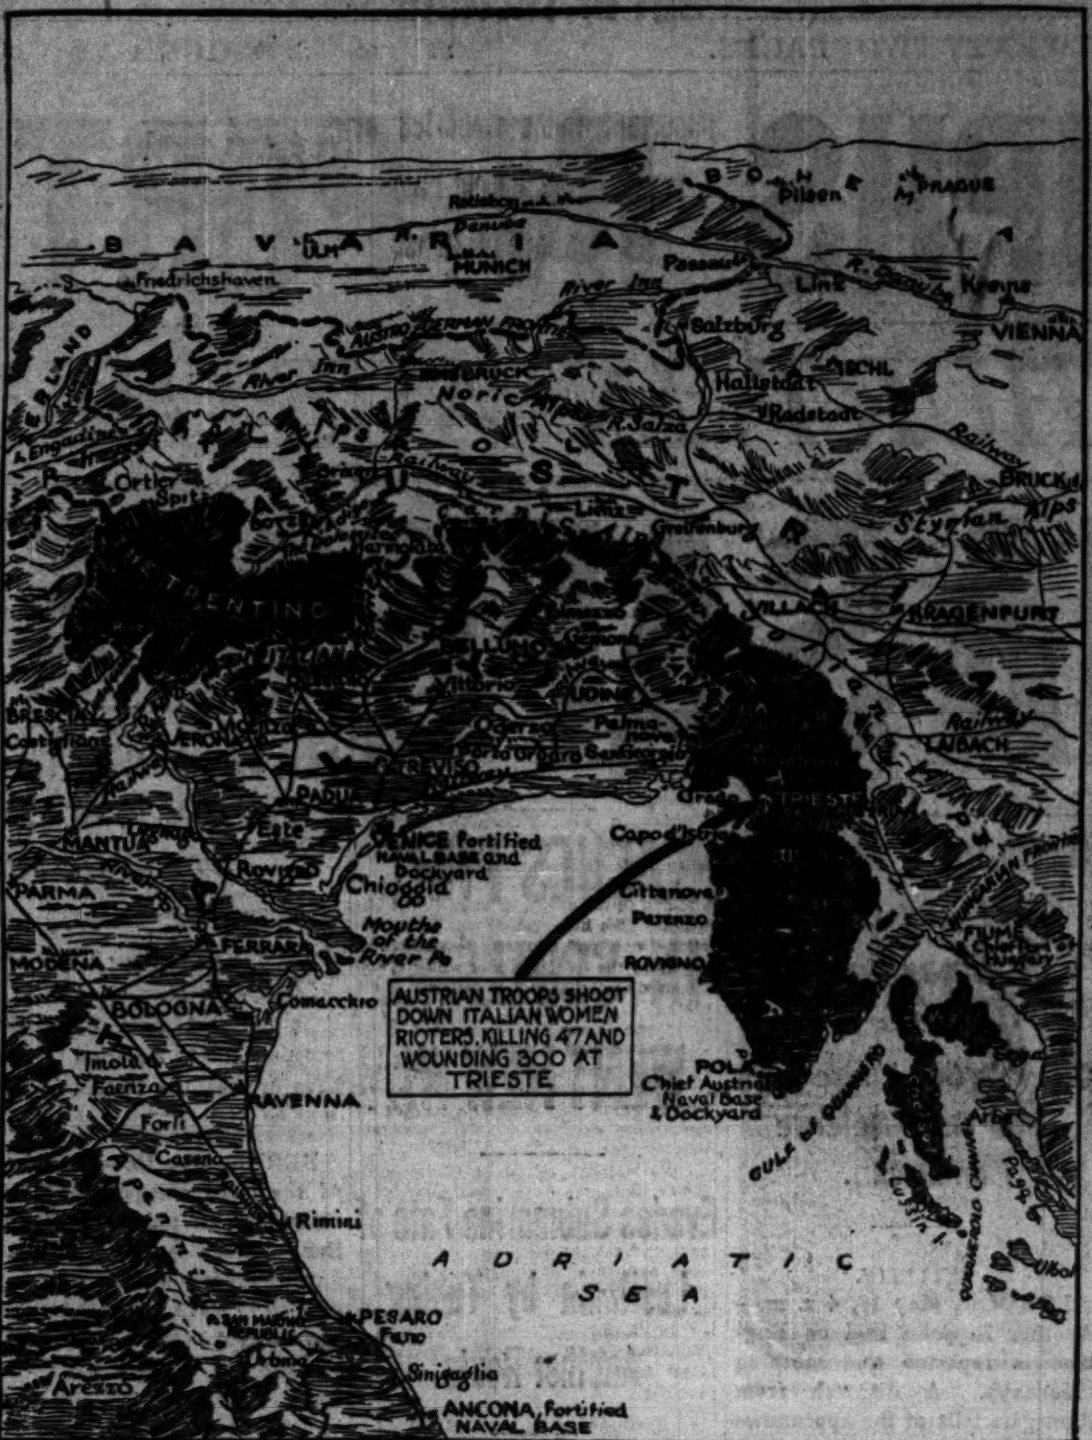

Johnson was driving his machine north in Sheffield avenue. With him were Miss Olga Bergman, his sister-in-law, and George Carr, an actor, seated in the front of the machine. Both of 834 North Ridgeway avenue. At Clark street he turned the machine across the tracks, and it was struck a glancing blow by a street car he had failed to see approaching. The machine was hurled upside down on the sidewalk. Johnson fell under the wreckage.

He and Carr were rushed to the Alexian Brothers hospital, where Johnson was found to be suffering from scalp wounds, lacerations of the leg, probable internal injuries, and a fracture of the skull. Carr received a cut above the eye and severe bruises.

Miss Bergman was taken to the Chicago Union hospital, where it was found her wrist and leg had been fractured.

Where Italy and Austria Will Clash If Rome Decides to Enter War on Side of Allies.

(Shaded portion of map show provinces demanded by Italy.)

NO RUSSIANS SOUTH OF PILICA

Austria Claims District Has Been Cleared of the Foe, Who Is Retreating.

VIENNA, via London, May 16.—The Russian forces in Russian Poland continue in full retreat, according to the official Austrian war statement issued tonight. It is asserted that the district south of the Pilica has been cleared of the enemy.

In the region of Rudnik and Przemysl Russian rear guards were repelled from the west of the river bank and many prisoners were taken by the Austrians.

Austrian War Report.
Covering other points along the front, the communication says:

"In the mountain region from Kielec to the upper Kamienka we advanced along the Vistula to the heights north of Klimonow.

"Our armies continue to advance from the wooded Carpathians. A strong Russian rear guard was dispersed yesterday in the region of Magiera height. We took seven guns and eleven machine guns, and captured more than 1,000 prisoners.

"In the forenoon our troops entered Sombor, enthusiastically cheered by the population.

"In southeastern Galicia fresh Russian attacks were repulsed. North of Kolomea we captured a Russian point of support."

German War Report.
BERLIN, May 16.—The official war communication issued by the war office tonight says:

"A Russian advance in the region of Shavl, Courland, was repulsed easily. The number of prisoners taken there during the last few days is more than 1,000.

"On the Dubysa river, northeast of

AMERICAN CONCERNS CHEAT ON WAR SUPPLY CONTRACTS

Only One of Twenty-Five Large Concerns Has Made Goods Up to Sample Standard.

[BY CABLE TO THE CHICAGO TRIBUNE.]
PARIS, May 16.—An unfortunate situation has arisen with regard to granting contracts to American manufacturers, owing to the failure of even the big houses to deliver goods upon sample. Several important American contracts have been canceled.

Two important cases in point were the delivery of a monthly consignment of 50,000 pairs of boots below sample—the soldiers wore the boots into strips—and of 200,000 pairs of socks delivered and found to be of 30 per cent wool and 70 per cent cotton, while the contract called for 70 per cent wool and 30 per cent cotton.

Of the twenty-five of the largest American houses with which the French government is doing business only one has a record of never failing below sample. The worst deliveries are those of boots, socks, and underwear. The deliveries of cloth are much better.

STRIKE TIES UP LONDON: CAR EMPLOYEES WANT RAISE.

LONDON, May 16.—The London County Municipal railway street car system is tied up by a strike of its men, who are demanding a 15 per cent war bonus, owing to the increased cost of living. The council: Only forty cars out of 1,500 are running.

URGE BRITAIN TO PREVENT USE OF GASES IN BATTLES.

Archbishop of Canterbury and Bishop of London Appeal Against Retaliation Upon Germans.

LONDON, May 16.—The archbishop of Canterbury in a letter to Premier Asquith, and the bishop of London in a sermon today, have appealed to the British government not to make reprisals against Germany for the use of asphyxiating gases by authorizing the army to adopt similar means of attack. The letter of the archbishop of Canterbury said:

"Most earnestly do I trust that we shall never anywhere be induced or drawn to take a course which would lower us toward the level of those whom we are attacking."

ZEPPELIN AND 27 AEROS FIGHT DUEL TO DEATH

German Craft Sent to Earth and Crew of Sixty Die; Two Attackers Wrecked.

LONDON, May 17, 2:10 a. m.—The story of a duel between a Zeppelin and a squadron of twenty-seven British aeroplanes has reached the Daily Mail.

"This Zeppelin," says the account, "had been frequently seen cruising in the neighborhood of Brussels. About 8 o'clock in the evening it was suddenly surrounded and attacked by twenty-seven aeroplanes.

"The Zeppelin put up a spirited fight with machine guns and tried to escape by rising to a higher altitude. But the aeroplanes maintained their position.

"Within a few minutes the Zeppelin had received several mortal wounds and fell. All the crew of sixty were killed. Two aeroplanes were destroyed."

Miraculous Escape from Death.
The miraculous escape from a hideous death by a British aviator near Trier is told by "Kewlines" in a dispatch today.

"One of our airmen had a thrilling experience," he writes. "He was alone in a single seated aeroplane in pursuit of a German machine. He lost control of the steering gear, and the aeroplane turned upside down. He saved himself by catching hold of the rear center strut.

"While he hung thus, head downward, the aeroplane fell from a height of 8,000 feet to about 2,000, spinning round and round like a falling leaf.

"At last he managed to free his legs and reach the control lever with his feet. He then succeeded in righting his machine, which turned slowly over, completely looping the loop, whereupon he slid into his seat."

Airmen Cause Big Damage.
GENEVA, May 16.—Information has been received here that aviators of the allies have inflicted damage amounting to more than \$2,000,000 to the Zeppelin at Strasbourg, which are working on material for the German army.

MANY TITLED BRITISHERS IN LATEST CASUALTY LIST.

93 Officers Killed, 204 Wounded, and 68 Missing; Welsh and Scottish Regts.

LONDON, May 15.—The week-end casualty lists, issued today, show that ninety-two British officers have been killed and 204 wounded, and that sixty-two are missing. Among the officers killed were Brig. Gen. Arthur Willoughby G. Lowry Cole and Capt. the Hon. Eric Edward Upton, heir of Viscount Templemore.

Among the wounded are Maj. Martin Archer-Shee, M. P. for central Pembrokeshire; Lieut. Sir J. F. Gray, Bart; Capt. the Hon. Alfred Harris, brother of the Earl of Malmesbury; Lieut. the Hon. A. P. Maclean, second son of Baron Maclean; Capt. Sir Frederick V. Robinson, Bart; Lieut. the Hon. J. H. Bowes-Lyon, second son of the Earl of Strathmore; Lieut. Commander Lord Alister Graham, youngest son of the Duke of Montrose; and Lieut. Col. C. B. Vandeleur, who, while a prisoner of war in Germany, escaped and sent a report to the government concerning the ill-treatment of British prisoners in Germany.

PERU VOTES FOR PRESIDENT

LEMA, Peru, May 16.—General elections are being held throughout Peru today, but the balloting will not be concluded until tomorrow. The indications seem to favor the return of the former president, José Pardo, to the presidency.

STRAW HAT TIME!

We Put Our Straw Hats on Sale This Morning

We think we have the greatest stock in Chicago—we don't usually deal in superlatives, but this time we're surely justified—

Hats from Henry Heath, of London, with the special cushion leather that holds it on the head.

Fine Leghorns and Milans from leading Italian makers.

Panamas from South America.

Special novelties from the Philippines.

Besides those made in our own good U. S. A.

Prices, \$3, \$4, \$5 and higher

Take our word for it—it is the greatest straw hat stock in Chicago, and every last one of them is brand new.

See our windows for a variety that will astonish you.

Sense in Underwear
"Delpark Half Back Athletics"

The Only Perfect Fitting Practical Union Suit

The man who is particular about the fit of his underwear will find the Delpark an ideal garment.

In the Delpark you have a garment that has all the good points of a closed crotch athletic union suit, with all the objectionable features eliminated.

In the Delpark the slashed leg provides you with the widest opening of any garment in the world. The seat partly drops, then swings under and clear. Delpark design keeps the slash closed. Just two buttons that are easy to reach.

Made in Variety of Materials Priced at \$1.00 to \$8.00 the Suit

GERMAN ANSWER MAY TELL WILSON "CHECK BRITAIN"

Who Expected to Demand That
Lifting of Food Blockade
Be Forced by U. S.

BY ARTHUR SEARS HENNING.
Washington, D. C., May 16.—(Special.)—Germany is contemplating the lifting of a policy in regard to President Wilson's demands designed to put the United States on the defensive, according to semi-official sources received from Berlin today.

Such, according to this report, will be a surprise, as there shall be no suggestion of submarine attacks on passenger and other merchant ships endangering the safety of Americans and will demand in return that the United States cancel Great Britain's blockade operations aimed at the straits of Germany.

But this report faithfully represents the attitude and intentions of the German government is deemed likely by those officials who have been keeping in close touch with the changing demeanor of Berlin since it became apparent that the United States would not break through its policy of neutrality in the war.

Administration officials declined to discuss the report pending the arrival of authoritative information from Ambassador Gerard concerning the German attitude. Although it is known that the president's note was presented to Foreign Minister von Jagow yesterday, Ambassador Gerard has not yet returned to his post in Berlin, and it was reported by the foreign office and by the German public.

Whether the foreign minister gave any indication of the attitude of the German government toward the president's demands or indicated when a reply might be expected is not known here.

COURTESY DEMANDS REJECTED.
Count von Bernstorff, the German ambassador here, denied that he had received any official intelligence concerning the action of his government and said he could not vouch for the accuracy of the official reports appearing from Berlin.

He is likely to make considerable demands upon the United States, however, it is known to be the belief of German officials generally. One of the points pointed out that the president's note left an opening for such a demand which Berlin would not be likely to overlook.

It was pointed out that the president's note, while indirectly merely a demand that the American government "check" Germany, was in reality a demand that the United States "check" Germany.

American Oil Tank Liner After Being Torpedoed by German Submarine and Before She Was Beached.

THE "GULFLIGHT" AFTER BEING TORPEDOED

The Gulflight was torpedoed by a German submarine off the Sicily Islands May 1, while being conveyed by British destroyers. The captain of the ship and two assistant first lieutenants were killed at the attack. In the note sent to Germany following the sinking of the Lusitania, the attack on the Gulflight was one of the acts of the German navy for which the United States government would hold the German government to strict accountability.

Great Britain would have been compelled to abandon its isolation policy. Germany has admitted that its submarine warfare on enemy commerce was a violation of international law, and that it was a deliberate reprisal upon Great Britain for committing a similar breach of the rules of war in attempting to starve the German non-combatant population.

Ready to Stop Relations.
The United States now has called upon Germany, with a determination well understood in Berlin, to cease the violation of international law embodied in its submarine reprisal policy. It is well known that the administration is prepared to break off diplomatic relations with Germany unless guarantees of a discontinuance of the warfare which has cost America 116 lives be given promptly.

According to German officials, this attitude gives Berlin legitimate reasons to ask that the United States call upon Great Britain with equal determination to abandon its illegitimate long distance blockade, which includes neutral as well as German ports, in violation of international law, and to permit the shipment of food to Germany.

It is contended that if the United States should say to Great Britain that it would "not omit any word or any act necessary" to preserve its rights of trade with Germany, it should be willing to sever diplomatic relations with the United States.

It is contended that if the United States should say to Great Britain that it would "not omit any word or any act necessary" to preserve its rights of trade with Germany, it should be willing to sever diplomatic relations with the United States.

CREW OF "GULFLIGHT" ON ENGLISH PATROL BOAT AFTER BEING SAVED

U. S. BELGIAN RELIEF BODY GIVES \$65,000.00 IN AID.

American Commission Computes
Total Help That Will Have Been
Afforded Disasters by Aug. 15.

LONDON, May 16.—The American commission for relief in Belgium will have provided foodstuffs to the value of about \$65,000,000 for the Belgian people by the middle of August. Charitable contributions from America will have amounted to about \$5,000,000 and from other quarters of the world approximately the same total. The great bulk of the food supplies, representing the remaining \$55,000,000, is being provided indirectly by the Belgian people themselves.

This is made possible by the elaborate financial machinery set up by the commission, enabling the Belgians to utilize their own energies and resources. Fully 10 per cent of the Belgian people are being supplied with food by the commission without recourse to charity.

One result of the commission's operations is that bread is now much cheaper in Belgium than in London.

When the commission was formed last October, under the chairmanship of Herbert Clark Hoover, it was estimated that the total imports required to keep the population of Belgium alive would amount in value to about \$50,000,000 before the next harvest. The rise in the price of foodstuffs increased the necessary amount to \$65,000,000.

Yale Keeps Its Lusitania Dead.
New Haven, Conn., May 16.—The flag in the Yale university quadrangle was down at half-mast today, in tribute to the Yale graduates who perished with the Lusitania—Justice Miles Perkins, Alfred G. Vanderbilt, and Linden House 2.

"The War, the Beam in Our Eye." is Mr. Rogers' motto today at the noon meeting at the Underwood Building, 101 North Dearborn.

Several hundred Chicago Poles adopted a unanimous resolution yesterday declaring their intention to be loyal to the United States, to observe strict neutrality, and to place implicit faith in the wisdom and judgment of President Wilson. This action was urged by City Attorney J. L. Pletoski, who spoke in the assembly hall at Sherman park in the afternoon of a meeting in commemoration of the anniversary of the adoption of the Polish constitution.

RUSSIANS ACCUSE GERMANS OF KILLING WOUNDED MEN.

Prisoners Killed After Hospital
Shells Were Bombarded and
Later Set on Fire.

LONDON, May 17.—The Russian Petrograd correspondent sends the following official note, issued in the Russian capital on Sunday:

"Prisoners of war, the wounded and the sick, who are in the hands of the German army, are being treated with the most cruel and inhuman disregard for the laws of war. The German army is accused of killing wounded men and of setting fire to hospitals."

"Prisoners of war, the wounded and the sick, who are in the hands of the German army, are being treated with the most cruel and inhuman disregard for the laws of war. The German army is accused of killing wounded men and of setting fire to hospitals."

BRITISH TROOPS DRIVE GERMANS OUT OF TRENCHES

Important Gains Reported at
Several Points from Flan-
ders to South of Arras.

LONDON, May 16.—Advances by the allied troops along the whole front from Arras to the south of Arras were reported tonight. A statement by the London war office says:

"The First (British) army has made a successful attack between Valenciennes and Cambrai, breaking the enemy's line over the greater part of a two mile front."

"The attack began at midnight in the south of Valenciennes, where we carried two successive thrusts at German positions in a front of 800 yards. A mile farther to the north another attack at dawn carried 1,000 yards of German front line trenches and was pushed rapidly on, extending no less than 300 yards further south by breaking under our fire. The French suffered especially heavy losses in the Valenciennes hills."

"By an attack we took possession of a strong French village point extending over a width of 600 meters and a depth of 300 meters north of Bullied Tournai, and held them notwithstanding three counter attacks. They are expected to reach here early tomorrow."

"In this sector to the south of Arras we have carried out divers actions with a view to consolidating our new front. In driving out the enemy from several points, where they were still holding out, our troops gave proof in the struggle, foot by foot, of great tenacity."

"We gained 200 yards on the slope which descends from the plateau of Lorette, near Bouchemme. We have carried some additional houses in the northern part of Valenciennes, and a captive German balloon, to the east of Valenciennes, and our aviators have bombed the station of Somain."

"In Champagne, to the northwest of Ville-Sur-Tourne, an action of a purely local nature has given us a solid success."

"Explosive Mine and Attack.
"Last night the enemy exploded a mine behind our front line. Eight German companies immediately precipitated their saps on our positions and they gained a foothold in one position. We immediately delivered a counter attack and retook part of the lost ground, taking seventy-seven prisoners, of whom three were officers."

"During the course of the day we delivered a counter attack which was carried out with much spirit with the bayonet and hand grenades and resulted in our recapturing of all of the positions."

"The enemy has suffered enormous losses—a fact which has been established by us with certainty in the trenches and on the parapets. We have, in fact, found more than 1,000 German dead, and we have, in addition, captured 200 prisoners, including nine officers, and taken six machine guns. This, almost all of the at-

Army Budget Bill Clause Permits Garrison to Store Up Supplies.

(BY A STAFF CORRESPONDENT.)
Washington, D. C., May 16.—(Special.)—The recent activity of the war department in letting large orders for munitions and supplies was explained today by a provision in the army appropriation bill which passed last congress.

This paragraph provides that hereafter funds appropriated for the support of the army and not used for the particular thing specified because of some valid reason may be used for the procurement of supplies to be held in reserve for issue at any time.

Prior to the adoption of this section the secretary of war was compelled to expend the sums appropriated as congress directed, or else to turn the money back into the general fund of the treasury.

Rushing of Work Avoided.
By reason of the old policy, the army frequently was forced, near the end of the fiscal year, to rush through a lot of work which ordinarily should have had more time for its completion. Also large sums of money in the past have been turned back into the treasury by the failure to complete the work designated within the required time limit. Another great cause of unexpected appropriations in recent years has been the passing away of numerous retired officers, whose salary was appropriated for an entire year.

Under the law as it now stands, if the secretary of war chooses to divert funds in any way, he may do so. Also in case a retired officer dies the balance of his year's salary is immediately available for other purposes. A wide interpretation of the law gives the secretary practically carte blanche to do whatever he likes with army appropriations in times of emergency.

No Delay for Appropriations.
Thus, if the present negotiations with Germany should take a sudden turn for the worse, the war department would not have to wait for a new appropriation by congress to get the preliminary work incidental to the organization of a huge fighting force under way.

Who was directly responsible for the interpretation of the provision in the law has not been determined. It is more than likely, however, that it was included at the suggestion of Secretary Garrison, who has been vigorous in his efforts to obtain greater leeway for the development of the army.

All first officers of the army were induced to believe that as a result of the new provision, the secretary would stifle them on their allowance for travel, pay, transportation, and the like.

Freedom of Congress Curb.
Now, however, they are convinced that the section gives to the army the freedom of legislative direction which it has needed for years.

It is impossible to figure what the unexpected balance for the war department will be this year on the basis of former computations. It was pointed out today, however, by the officer in charge that whatever it is it can be promptly added to the entire appropriation of over \$100,000,000 for the next fiscal year in the case of an emergency, as the secretary would have authority, under the law as it now stands, to pledge next year's appropriation in advance for whatever purposes he saw fit.

CARS KILL UNIDENTIFIED MAN

An unidentified one-legged man was killed by a Northwestern passenger train at Geneva street and California avenue yesterday. The man wore a black, soft hat, black coat and vest, striped trousers, and a red checked shirt. His hair was thin and worn pompadour and he had a small gray mustache. In the bundle he carried a blue and white shirt.

HOW TO WIN A HUSBAND.

GLADYS NOGGLE
FOUR years ago a group of freshmen were initiated into the Alpha Phi sorority at Northwestern university. They were called the "beauty choir," and held wide attraction for the male student body. Three of these young women, now wearing the dignified gowns of seniors, announced their engagement at a "crazy corner" given Saturday by the sorority at the residence of Mrs. W. H. Rogers, Rogers Park. The young women are Miss Gladys Noggle, Miss Mildred Weese, and Miss Miriam Dean. The fortunate young men are, respectively, Lawrence Ely, Herbert Harker, and Welton Stallsmith. All are college men. Mr. Harker and Mr. Stallsmith belong to Phi Delta Theta, and Mr. Ely is a member of Sigma Nu. The three announcements created a stir on the campus even at this time of the year, when engagements are expected, according to college history. A reporter for The Tribune asked the co-eds to tell how a college girl wins a husband—in fact, made bold to put the question pointblank: "How did you win Mr. Ely, Mr. Harker, or Mr. Stallsmith?" Their different replies are as follows:

BY GLADYS NOGGLE.
Winning a husband is probably more easily done than to tell how—that is after success has crowned one's efforts. However, a college girl has certain advantages. From her history courses she learns how men have been influenced by an appeal to their pride or vanity; in economics she learns how men value efficiency in the use of energy and money; in psychology she learns well, business men call it how to advertise, but we say how to make one's self agreeable.

In my case, well—that is personal. But I think you can say that Mr. Ely found me an independent college woman who could walk across the street without assistance.

And there you have the three stories of how three girls won their husbands to be. But, after all, has the "how" been fully explained? Probably you may think Miss Weese is right—"It is all one long, lovely mystery."

BY MISS MILDRED WEESE.
How did I win a husband? That is too long a story, and, besides, I don't believe that I know. Does anyone? It seems to me that philosophers and bachelor women have given the subject centuries of study and never yet has the formula been discovered. It is enough that one falls in love. To explain why some one asked you a question that determined your future happiness might spoil the venture before it is begun. It is all one long, lovely mystery!

Now the "mystery" has brought a betrothal, and as the Big Day draws nearer I begin to think it is not so much "mystery" as just plain, everyday love!

BY MIRIAM DEAN.
[As related by a "Tattler."]
Mr. Stallsmith met Miss Dean at a dance when both were freshmen. It was the first dance either had attended at college. Both were homesick, homesick, and looking for a friendly friend. They liked each other from the first and under the circumstances were often joined in company.

When two persons at the tender age of freshmen get well acquainted everything about love is automatically explained. Mr. Stallsmith found that while Miss Dean liked to dance and join heartily in the college frivolities, she also was a sensible and capable girl. She might dance, but home affairs held for her a greater charm.

LABOR DEMANDS WILSON KEEP U. S. OUT OF CONFLICT

Buchanan Stirs Chicago Union Men to Support of the President.

Strong resolutions endorsing the stand of President Wilson in the present crisis and demanding the United States be kept out of war were adopted unanimously yesterday by the Chicago Federation of Labor.

The resolutions said the laboring men of the United States are opposed to war and urged a united effort of the union members of the United States against war, now or in the future. The manufacturers of munitions of war who encourage war for financial reasons were condemned severely.

Buchanan Praises Wilson.
Congressman Buchanan of Chicago, who was a guest of the federation, supported the resolutions with an enthusiastic address in which he praised the stand President Wilson has taken during the European conflict.

"It is the duty of the labor unionists of the United States to stand by the president in this crisis," Congressman Buchanan said. "He will guide the nation safely, and no amount of jingoism should be allowed to swerve us from the cause of peace."

"The United States indirectly will pay a sufficient penalty in the loss of business without getting directly into the conflict where our citizens will be shot. The organized labor movement of the

world has stood for peace, and I am sure that we will not have war if the people of the country are left free to exert their influence. There are certain influences—manufacturers of munitions of war—who are carrying on an organized propaganda to get the United States into war. We must see our influence against that propaganda."

Fowler Also Backs Wilson.
H. Robert Fowler, formerly a national representative from Illinois, also supported the policy of President Wilson and urged the labor union members to stand for peace.

The delegates were surprised when Cornelius Lehan, a member of the Irish Retail Clerks' union and a representative of the Irish Federation of Labor, was introduced. Lehan with plenty of native wit, explained to the delegates that the capitalistic classes of Europe were responsible for the war.

The school committee of the federation of labor was instructed to start a campaign against the military drills and rifle practice that is being held in the assembly rooms of some of the city schools.

"The War, the Beam in Our Eye," is Mr. Fowler's title today at the noon meeting at the later Ocean Building, 21 W. Monroe St.—ADY.

We always depend on its quality and not on spectacular advertising methods to sell the

MARSHALL FIELD & COMPANY
Diamond Engagement Rings

In selecting a Diamond a most reliable supply source is essential. Wisdom and satisfaction might well suggest Marshall Field & Company for Diamonds, because of the high standards adhered to by us in their selection and classification.

Our stock contains Gems from the most moderate-priced up to the stones of great importance.

Our Ring Settings invariably show a marked individuality in design and workmanship. Both the designing and work is done in our own workshop, insuring perfection in all details.

A handsome little leather booklet on Diamonds, giving authentic information regarding cutting and classification according to our standard, gratis at our Diamond Section, First Floor, South Room, Wabash Avenue

WAR PETITION IN PUBLIC SCHOOLS STARTS INQUIRY.

Supt. Ella Flagg Young to Investigate Reported Activities of Teachers in Circulating Appeal.

Investigation of reported activities of teachers in the public schools in circulating a petition relative to the European war will be begun this morning by Supt. Ella Flagg Young.

The petition, which is being circulated by the Illinois, State-Zeitung and the Chicago Free Press, two German newspapers, is said to have been sent by parents of some school children to principals and teachers of certain schools with the request that all children make copies for their parents to sign.

One of these requests made its appearance at the Goudy school, Foster and Winthrop avenues, last week. Principal Thomas C. M. Jamieson said he had not heard of it. Miss Marie J. McDonnell, a teacher, said she had seen it, but had not asked her pupils to make copies of it.

Mrs. Young said that it was against the policy of the public schools to assist in circulating petitions, especially if there

is a suggestion that they are partisan, and that she would look into the matter today.

The petition requests President Wilson to place an inhibition on all shipping between the United States and belligerent nations, except that carried by American ships, until the war zone is made safe for American citizens and until Great Britain ceases to interfere with American ships.

TWO WOMEN IN MOTOR CAR DIE AT GRADE CROSSING.

Two Others with Them Perhaps Fatally Hurt at Windsor, Ill., When Train Hits Auto.

Windsor, Ill., May 16.—Mrs. Hannah Turner, aged 50 years, and Mrs. Nan Turner were killed and Mrs. Elizabeth Barker and James C. Renner were perhaps fatally injured when a Big Four train struck the latter's automobile at a grade crossing here today.

Auto Loops the Loop.
Evanston, Ind., May 16.—(Special.)—Dee Lowry, a chauffeur, looped the loop unintentionally here today and escaped with slight bruises.

To Motorists: This Master-Plant

offers every known efficient method and facility for the manufacturing of perfect lubricants. Its recommendation is **Polarine** for all standard makes and types of cars.

In using the product of this plant in your motor you get the benefit of the lubricating experience of **Standard Oil** experts. And no body of men represents more knowledge in this line.

Their prestige and the prestige of this company are at stake on the recommendations they make.

Polarine

"Standard Oil" science, experience and facilities have eliminated the faults of poor motor oils! Thus thousands

of motors which were once troublesome and expensive have been made smooth in operation and economical in upkeep.

Polarine maintains the correct lubricating body at any motor speed or temperature.

In seven years the demand for it in the Middle West alone has increased from 1,100 gallons to nearly 7,000,000!

Why experiment longer, when you can get Polarine? Polarine is dependable. It is on sale everywhere at less price than asked for oils that fall short of Polarine in efficiency.

WANTS MAY 18 "PEACE DAY"

New York State Commissioner of Education Urges School Children Unite in Its Observance.

Albany, N. Y., May 16.—Dr. John H. Finley, state commissioner of education, in a statement issued tonight, urged that school children of the state unite in observance of May 18 as peace day. He asserted that the address of President Wilson at Philadelphia last week was the "word to send to all the schools."

AN engagement ring is a gift of lasting sentiment. The stone should be flawless, the setting perfect. This is one of our specialties, for we realize that perfection in an engagement ring will be a constant source of pleasure in the years to come.

The Tobey Furniture Company

Furniture, Curtains and Fabrics, Oriental Rugs, Interior Decorations.

Summer Furniture And Decorations

MORE distinctive and novel features are being shown by this Company than in any previous season. Much of the furniture has been designed and executed in our own studios and shops, and, although moderate in price, has a smartness which is most attractive. Many of the other patterns are also exclusive—to be found only at this store.

The Garden Furniture shown on our First Floor is, we believe, the first of its kind to combine distinction and weather-resisting qualities at a reasonable price. It is made of a high grade of cypress, is put together with wooden pegs and finished in a tough outdoor white enamel.

All the staple styles of porch and lawn furniture are also included, among them:

Upholstered Reed Furniture in numerous excellent shapes and colors.

Fibre Rush Furniture, in great variety at low prices.

French Chateau Lawn Umbrellas, with tables and chairs.

Willow Furniture, in many exclusive patterns, as well as the usual lines.

Old Hickory Furniture. Maple Bamboo Furniture.

Sundials. Rose Trellises.

Wren and Bluebird Houses.

Canvas Hammocks, Swings, Sleeping-porch Beds, etc.

Several unique and exclusive Breakfast Room Suites are among the recent creations of our studios and shops. They are painted and decorated, lacquered, etc., and are possessed of a delightful freshness and originality. Customers will find it a pleasure to inspect them.

Wabash Avenue and Washington Street.

Young was one of the hardest fought games of his career in the fourth round of the City League yesterday when he pitched the Normal Parks to a 2 to 1 victory over the Ideals in a ten inning game at Normal Park. Young had fanned visitors when he came to bat in the ninth. Charles Black was on second when he had arrived through his single and Hanson's out. Young delivered a sharp hit to center and Black came home with the winning run. Score: Normal, 2; Ideals, 1.

GUNTHERS LOSE TO FOSTERS, 3-2, IN SLAB BATTLE

Four Hits, Pass, and Error Give Giants All Their Runs in the Fourth Round.

Gunters gave the American Giants their hardest fight of the year yesterday, losing, 3 to 2, to Foster's men. Rube pitched the first six innings himself until the Gunters showed a little extra speed when he sent in Ball in his place. Four hits, a pass, and Sullivan's boot gave the Giants all their runs in the fourth inning. Milo Welner was spiked by Barber in the fourth inning and forced to retire. Score: American Giants, 2; Foster's, 3.

HARLEM, 8; CHICAGO, 0.
The Harlem A. C. team of Chicago defeated the Chicago All Stars at East Chicago, Ind., in the sixth inning, scoring two runs on a triple hit by Muller and Bartlett and Dellinger's pinch. G. Muller held the home team to three hits and struck out fourteen. Score: Harlem, 8; Chicago, 0.

CHURCH OUSTS UNION SEMINARY

Northam School Indicted by Presbyterian Assem- bly Body

New York, May 18.—[Special.]—The Union Theological seminary of this city, a storm center for many years, has been

out of the list of orthodox institutions by a committee of the Presbyterian general assembly. The same committee who read the seminary out of the Presbyterian church.

This information reached New York in what is called the "Blue Book," issued

This action had been reported before, until the arrival of the book named. It was not known that the committee had read the seminary out of the list of

Speculate on Probable Effect.
Speculation is widespread now about probable effect this action will have the New York presbytery and the rise the forthcoming assembly may

The committee was named by the Presbyterian general assembly and is composed of clergymen and lawyers, who have spent two years at the task. The committee was named to find out whether there might not again be official relations

the committee quotes from an official statement made to it by the president of the seminary directors. The statement sets forth what the directors of the Union seminary profess.

teach, and is therefore official. It is, and after it is finished the directors they do not regard it as a statement of doctrine.

There is no mention by the Union
ary directors of the Bible as the su-
me and final authority in theological
controversy; no mention of the virgin
h of Jesus; no mention in particular

Jesus offered himself as a sacrifice to satisfy divine justice and to reconcile us to God; no mention of the bodily resurrection of Christ, nor of the working of miracles by him; all of which were denied by the assembly of 1910 to be essential doctrines of the word of God and

It has been a cause of disturbance and stress in some parts of our church," the committee continues, "that graduates of Union seminary, seeking ordination, have been exceedingly vague in their

...or frankly agnostic, or openly un-
...ing concerning these particular
...rines which are declared to be essen-
...and necessary."
...e "Blue Book" relates how Union
...inary in a second statement says stu-
...s who are not grounded in Presby-

standards do not go before the synod to be examined, and the conclusion is made that "some Presbyterian ministers have actually been saved by unorthodox teachings of Union seminaries." This statement the committee

in spite of such contention many
states of Union have revealed doubts
in examinations that have caused serious
harm to a great number of devout and
pigent ministers and elders."

GLENN DELAYS HIS TRIP.
Bishop of Chicago, Ill in
Georgetown Hospital, Reported
to Be Doing Well.

Washington, D. C., May 16.—[Special.] Bishop Quigley, who was taken ill only at a hotel here some days ago, not be able to return to Chicago this morning, as was expected. At the Georgetown hospital today it was

that the archbishop was progressing but that he would remain in the hospital for a week at least before he could be taken home.

statements when questioned at the Grand Crossing police station; said the Copernsmith baby waved at him over calling too high for the child to have reached; told of hearing screen door squeak, though Petrick is deaf.

White cotton glove with three finger tips cut off found in Petrick's room; Petrick said tips were to be used as finger bandages.

Bandage was found on floor in Copernsmith kitchen; Petrick has scar on middle finger of left hand.

Pair of shoes, said to show blood stains, found in Petrick's room.

All their attention was given to the delivery boy who had left groceries at the Coppernsmith home an hour or two before Mrs. Coppernsmith and her 2 year old son were killed. Petrick, who had been arrested before and released, was taken into custody again on Saturday evening after Capt. Michael Evans had telephoned Chief Healey the result of his examination of the suspect's finger prints.

“We have evidence enough now to hold Petrick. After the finger print tests are completed we expect to have enough to book him on a charge of murder.”

Tests Planned Today.

Tests will be made today to make sure that Petrick contradicted himself in certain of the statements he made to the office officials. Capt. O'Brien said he is confident that the railing on the Copperwheat bank porch is as high as the

Blood Stains to Be Examined.
The bloodstains on Pethrick's shoes will be examined to determine whether or not they are human blood. Pethrick said the stains were picked up on the floor of a butcher shop. The mangled glove found in his room is not of the same material as the banders left by the murderer.

Although, according to the police, he got badly tangled up in answering the questions shot at him, Pethrick stuck to his statement that he had not been near the uppermuth home after leaving it at 11 o'clock, about three hours before the murder.

Chief Healey declined to comment on the case, but said he expects definite developments today.

Phoenix, Ariz., May 18.—[Special].—Following his attack yesterday on the state board of pardons and parole for refusing to recommend clemency to the 10 men destined to be hanged in "an act of death" May 28, Gov. George W. Hunt today invited protests to the board from all over the nation.

While the lives of the condemned men the Arizona state prison seem hopelessly doomed, the board of pardons and clemency might yet intervene, were it disposed to do so."

PERTS END BOOKS AUDIT.
Collector Refuses to Discuss
Result of Accountants'
Investigation.

ing Mr. J. F. McCarty, deputy collector, could discuss what results had been obtained. Both were present during a part of the day. It is expected that a report will be made to Mayor Thompson today.

LACK OF BOATS WHEAT FACTOR

Scarcity of Ocean Tonnage
Threatens to Limit Ex-
port Grain Movement.

CROP NEWS CONFLICTS.

Wheat traders who are looking into the export situation for the coming year are convinced that there will be a great difference, as compared to last year. The scarcity of tonnage this summer and fall is likely to be a factor and some of the exporters have expressed the view that tonnage will not be as large as it has been in the last few months, unless our prices meet their views.

With any serious interruption of the steady export to the leading terminal markets, as well as at the seaboard shipping points. Seaboard ports in some instances are still blocked with grain, with the shipping season nearly over. If the new crop turns out to be as large as last year, and if we have as much grain for export, it will be necessary to have the boats at hand, as seaboard storage facilities are inadequate.

Shipping Outlook Dubious.

There have been intimations for some time that the shipping situation is not as favorable in this country than it has been. There is a strong possibility of the comparatively early opening of the Black Sea trade again, which would demand many steamships to carry grain out of Russia and supplies to heavy grain shipments to the east. There are no commerce destroyers in the south Atlantic to drive away merchant ships, as there was last year.

However, it is understood that the shipping situation will be a much larger call on the available tonnage to carry coal to France and to South America, with high freight rates prevailing. With the ships available last year none too abundant, it is not surprising that the shipping situation will call on a large tonnage in determining prices.

Insect Damage Not Feared.

The trade was flooded with crop damage reports last week, but the latest advice was of a much more reassuring kind. While the damage done is entirely phenomenal, it is understood that there has been such an immense acreage of winter and spring wheat, that winter and spring conditions have been unusually favorable, and that the plant generally is in strong, healthy condition.

Canada and our wheat belt have been reported to have had a very good crop, which, with conditions there in fine shape. The Canadian crop report, issued Saturday, the first of the season, was an optimistic document, reporting wheat much earlier, with conditions of both spring and winter varieties fine. Canada has prospects for a big crop this year to make up for the poor yield last year. Foreign crop conditions are generally favorable.

Corn Prices Work Lower.

Corn prices have been lower, with wheat, and the fine crop prospects and the slow cash demand have contracted the effect of the smaller offerings and decreasing receipts from the country. Canada now has the best of the crop, which has been planted under fine conditions. The weather last week having been extremely favorable. Stocks are still large and there is still a quite liberal export demand is tame, and clearances are moderate.

Rate Reports Satisfactory.

Rate reports have been of a satisfactory character. Rates in the market have been of great benefit to the country. It is believed the acreage will be about the same as a year ago.

There were reports of a big business for export last week from the seaboard, but that business was not so good as it was in the past. There is a fair prospect for export business, but the market appears in need of support much of the time, although there is little hedging pressure at the present time.

Products Given Support.

Provisions sold a little, but on the whole the market was quiet. The market was quiet, with credit being tight on the seaboard. The market was quiet, with credit being tight on the seaboard. The market was quiet, with credit being tight on the seaboard.

Range of Prices for the Week.

The Tribune Investors Guide

Answers to inquiries are based upon information which The Tribune believes reliable, fair, and unprejudiced, but beyond the exercise of care in securing such information The Tribune assumes no responsibility.

Westinghouse Electric.

K. E. M.—The Westinghouse Electric and Manufacturing Company has received a large order recently, but makes no announcement as to how large they are. The company has just issued a circular to holders of its convertible bonds asking them to exchange the bonds for other securities in order that the company may be changed to prepare the way for possible future financing. The circular states that the company has all the capital it needs to handle the war orders and will need no new financing till a return of good times brings a big increase in ordinary business. The company's fiscal year ended March 31 and its annual statement has not been issued yet. The plant in East Pittsburgh was closed by a strike during six weeks last year, but notwithstanding this it is supposed that the 4 per cent dividend on the \$20,000,000 common stock was earned. As no more labor difficulties are expected this year and the English company is doing a large business, getting orders that formerly went to Germany, a fairly prosperous year and a continuance of the common dividend are expected.

Southern Sierras Power.

R. S. Peoria, Ill.—Since the answer to your inquiry regarding the Southern Sierras Power and several other companies was published a new report of earnings of the Southern Sierras has been received. For the year 1914 gross earnings showed an increase of 70 per cent and net was \$281,000, compared with \$164,000 in 1913. Total interest charge in 1914 was \$100,000, or about 72 per cent of the earnings. For the three months to March 31 the record was better, interest charges consuming 60 per cent of net earnings. Operating earnings were \$84 per cent of operating earnings.

Brief Answers.

A. C.—The Farm Credit Corporation has not begun the issue of cars, but appears to be pushing sales of stock. A purchase of stock would be a speculation, not an investment.

T. M. T.—The Tennessee Copper company paid 6 per cent in 1911, 10 per cent in 1912, and has been paying 3 per cent quarterly for the last year. The future course of the market cannot be predicted.

Leaders Think Men Will Shy at Prospect of Long Idleness.

The 16,000 striking carpenters will start voting today on an offer of increased wages. If the offer of an increase of 2 1/2 cents an hour for the last half of a year's agreement is accepted by the men, officials of the carpenter contractors' organization and of the carpenter district council stated yesterday that work would be returned to work a week from today.

Leaders See Peace Ahead.

Although there is doubt in some quarters about the offer being accepted, most of the influential members of the carpenters' organization say the men will take an opportunity to return to work rather than remain idle all summer, which may happen if the offer is refused.

By accepting the offer the carpenters will receive an increase, while a score of other unions have signed up without increases.

Carpenters Now Getting 50 Cents.

At the present time a strike against the carpenters is being called in many cities. The strike is being called in many cities. The strike is being called in many cities.

BUTTER TAKES SHARP DROP BUT RECOVERY IS EXPECTED

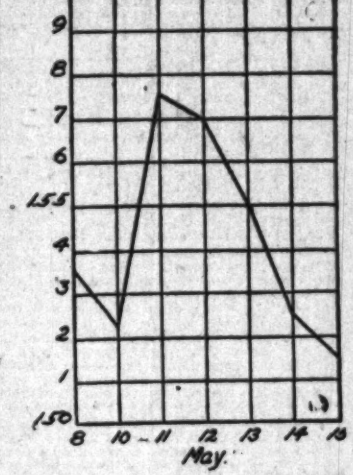

A decline of 1/2 cent a lb occurred in butter at the Chicago market, but it is more serious decline in prices at New York was responsible for the loss, and the market here showed a clearly defined upward tendency at the close of the week. Receipts are running far in excess of arrivals at the local market, but there is a corresponding increase in consumptive needs, and the trade is not laboring under the fear of possible competition from foreign butter, as it was a year ago.

BAROMETER OF THE WHEAT MARKET.

Diagram showing daily changes during the last week in the closing price of Chicago May wheat, as published in "The Chicago Tribune".

CARPENTERS TO VOTE FOR WORK

Leaders Think Men Will Shy at Prospect of Long Idleness.

The 16,000 striking carpenters will start voting today on an offer of increased wages. If the offer of an increase of 2 1/2 cents an hour for the last half of a year's agreement is accepted by the men, officials of the carpenter contractors' organization and of the carpenter district council stated yesterday that work would be returned to work a week from today.

Leaders See Peace Ahead.

Although there is doubt in some quarters about the offer being accepted, most of the influential members of the carpenters' organization say the men will take an opportunity to return to work rather than remain idle all summer, which may happen if the offer is refused.

Carpenters Now Getting 50 Cents.

At the present time a strike against the carpenters is being called in many cities. The strike is being called in many cities. The strike is being called in many cities.

BUTTER TAKES SHARP DROP BUT RECOVERY IS EXPECTED

A decline of 1/2 cent a lb occurred in butter at the Chicago market, but it is more serious decline in prices at New York was responsible for the loss, and the market here showed a clearly defined upward tendency at the close of the week. Receipts are running far in excess of arrivals at the local market, but there is a corresponding increase in consumptive needs, and the trade is not laboring under the fear of possible competition from foreign butter, as it was a year ago.

WOMEN'S WEAR.

Outside of the fact that it would be impossible for the clothing to take on a new look, the fact that the clothing industry is in a state of confusion is a fact. The clothing industry is in a state of confusion. The clothing industry is in a state of confusion.

CONCERNS AVOID WAR ZONE RISKS

Insurance Men, Warned by Lusitania's Fate, Place Riders on Policies.

LOSS IS NOT HEAVY.

BY C. M. CARTWRIGHT.

The life and accident insurance companies have recognized the danger of the so-called war zone of Europe ever since the German government proclaimed an area of danger. Since that time the insurance companies have been cautious in regard to writing lines on persons going abroad, particularly those who intended to travel in the war zone.

While the life and accident insurance losses will be heavy on account of the sinking of the Lusitania, yet the claims will come chiefly from policies that were written before the war began. The losses to American companies will not be nearly as heavy as those sustained in the Titanic disaster.

Another feature that is interesting in the latest issue of life insurance is that those that were lost in the Lusitania. For instance, it is not thought that A. G. Vanderbilt carried any great amount of insurance, and it is stated that Charles Frohman and Elmer Hubbard also were not heavily insured.

Companies Take Precautions.

When the war zone was proclaimed most of the life insurance companies notified their managers and general agents to make inquiry of applicants as to whether they intended to leave the United States and go into what territory. Some companies refused to take any risk on any one going to Europe. Others would write a small policy on any one going to neutral countries by neutral routes.

Some had a so-called war rider on the policy, exempting them from liability if the insured were killed as the outcome of the war incident.

The most conservative companies applied a rider on policies that would not be liable in case of death of a policy holder while going abroad, regardless of the nationality of the ship or the peacefulness of the mission, if caused by perils incident to war. Some companies would not write a policy on anyone going to neutral countries who would not be liable in case of death of a policy holder while going abroad, regardless of the nationality of the ship or the peacefulness of the mission, if caused by perils incident to war.

Chicago Concerns Play Safe.

The life insurance companies of Chicago played rather safe as to insurance on persons going abroad. There have been a number of opportunities to write business on part of western men whose business called for the other side, and these men endeavored to obtain life insurance in Chicago, but so far as known they were able to secure only a limited amount of insurance.

A Few of the Accident Insurance Companies Will Sustain Heavy Losses.

Probably as much as in the Titanic disaster. The Travelers of Hartford has a record of about \$1,000,000 in claims on the life of Albert G. Vanderbilt carried considerable accident insurance, as did Elmer Hubbard and Charles Frohman. The Travelers of Hartford has a record of about \$1,000,000 in claims on the life of Albert G. Vanderbilt carried considerable accident insurance, as did Elmer Hubbard and Charles Frohman.

Companies Liable for Losses.

Some questions have been asked as to whether the insurance companies will deny liability on claims that arise from the Lusitania disaster. The companies are liable for the losses in the opinion of the local authorities, unless there were riders on their policies. On old policies no war riders were attached and the claims will be paid in the usual course of business.

THIS illustration is a true representation of an actual scene in the second act of Chapter Three—"The Diamond From The Sky." Racing along at fifty miles an hour, car and driver are catapulted from a high cliff into the water below. No matter how hardened you are to movie thrills—you'll gasp in amazement at this thrilling scene. It is the most thrilling—most spectacular—scene ever recorded in motion pictures. See it!—at leading theatres!

The Most Spectacular Scene Ever Shown in Motion Pictures!

A misty day; a steep cliff; deep water below; a high-powered motor car; a frenzied driver being pursued; a race for life; fifty miles an hour; an accident—and then—the most sensational scene ever caught by a motion picture camera—a genuine, true scene that absolutely surpasses any feat of daring ever presented in motion pictures. This is shown in Chapter Three of "The Diamond From The Sky," the American Film Mfg. Co.'s great continued photoplay. Irving Cummings, hero of the story, makes this leap from the cliff. You see it all portrayed as vividly as it took place. It's got aeroplane loop-the-loops, parachute drops and all that sort of thing *beat a mile* for thrills.

You Can See It TODAY in

A Picturized Romantic Novel

By Roy L. McCardell

Chapter 3 Starts TODAY

\$10,000 For a Suggestion!

Two chapters of this remarkable photoplay novel have already been released. They are now appearing at the theatres everywhere. The third chapter starts the rounds of the theatres today. Don't miss it! If you are interested in seeing a beautiful love story—intense action, logical thrills, deep suspense—then go today to see "The Diamond From the Sky." You can read the novelized version of this great play—written by Roy L. McCardell—in next Sunday's Chicago Sunday Tribune.

Don't forget that \$10,000.00 is offered for a sequel to this photoplay-story. This offer is open to everyone—men, women and children. Only a suggestion is wanted—not more than 1,000 words. No literary ability is needed. Scenario form is not necessary. The \$10,000.00 prize is offered simply for an idea. See the photoplay and read the story. Then write your suggestion. \$10,000.00 will be paid to the person who submits the most acceptable suggestion. It costs nothing to try.
